## WEEE COMPLIANCE

### Collection and Recycling Arrangements in the United Kingdom

Under the UK Waste Electrical and Electronic Equipment (WEEE) Regulations, Grosvenor Technology are required to provide arrangements for the collection, treatment, recycling and recovery of Grosvenor products bought from Grosvenor Technology, when that product eventually becomes waste. This is referred to as "WEEE".

Grosvenor Technology have provided these arrangements since The Waste Electrical and Electronic Equipment Directive (WEEE Directive) was introduced into UK law in January 2007.

Any new increase in operating costs for manufacturers such as Grosvenor Technology is normally reflected in a price increase in the product. However, instead of increasing the prices of our products, Grosvenor has decided to share these new environmental costs directly with our customers. We believe in being transparent with you on any new environmental costs that our products need to address. Our approach to sharing these new environmental costs is:

- Grosvenor Technology pays for the costs of treatment, recycling and recovery of the WEEE to meet the targets set by the WEEE Regulations;
- Grosvenor Technology pays for the costs of data management and reporting to the Environment Agency to demonstrate compliance with all administrative requirements of the WEEE Regulations;
- You pay for transportation of your WEEE to Grosvenor Technology in the UK.

### Sending your UK WEEE for recycling

Grosvenor Technology will cover the cost of treatment, recycling and recovery of the product upon its arrival at our office in Poole, UK. It is your responsibility to arrange and pay for costs of collection and transportation to: Grosvenor Technology (WEEE Department) 450 Blandford Road, Hamworthy, Poole, Dorset, BH16 5BN, England.

In order to meet UK Duty of Care Regulations for waste disposal, you should use one of the following carriers (which hold a valid Waste Carriers licence):

- TNT UK Ltd. Tel: +44 (0)800 100600. web: [www.tnt.co.uk](http://www.tnt.co.uk)
- DHL International (UK) Ltd. Tel: +44 (0)8701 100300. web: [www.dhl.co.uk](http://www.dhl.co.uk)
- Christian Salvesen PLC. Tel: +44 (0)870 3655714. web: [www.salvesen.com](http://www.salvesen.com)

To comply with the UK Duty of Care Regulations, the transport of your waste to Grosvenor Technology must be accompanied by documentation identifying your company name and address, the number of boxes and weight of the items being transported.

### WEEE compliance within the rest of the European Union

Grosvenor Technology sells product from the UK to distributors in other EU member states on an "ex works" basis. The distributor acts as the importer of the equipment into their member state. Thus the distributor has the legal responsibility to:

- Register as the WEEE producer in their member state.
- Finance arrangements for collection and recycling of WEEE arising from Grosvenor Technology products that the distributor sells in their member state.

In this instance please contact your distributor for recycling information. If you have any questions about the recycling of WEEE then please send your question to [info@gtl.biz](mailto:info@gtl.biz) and we will reply as soon as possible.

### General information about Grosvenor Technology and WEEE

Grosvenor Technology are registered with the DHL UK Producer Compliance Scheme - our registration number is WEE/FE0500UT. Section 29 of the WEEE Regulations requires Grosvenor Technology to provide annual information on the quantities and categories of electrical and electronic equipment put on the market, reused, recycled and recovered within the UK. This will be managed through DHL UK.
