

Janus C4 Galaxy Integration Datasheet

Part number: JC4-INT-GXY

Overview

Honeywell is a well known solution and product provider of Intruder Alarms. The company's Intruder product portfolio includes a full range of Intruder panels and detectors with wired, wireless or hybrid solutions.

The Honeywell Intruder integration into Janus C4 allows users within Janus C4 to set, unset and reset the intruder alarm (and Alarm Groups within), be alerted to triggered detectors and outputs, create 'Automatic Actions' and represent have the intruder devices represented on a map for ease of use.

The Galaxy Integration is managed by a separate, licensable Janus C4 module.

Key Features

- Allows detectors to be controlled (inhibited and uninhibited).
- Allows AREAS to be controlled (arm, disarm and reset).
- Alarms are generated on armed areas, any 24/7 zones and panic alarms.
- Allows areas to be added to the mapping interface. This includes animated icons.
- Allows areas states and events to be used by the automatic actions system
- It can, if required, synchronise all user codes across Janus C4 and the Galaxy panel, providing one place to manage codes.

Licensing

The license is **PER** Intruder Panel e.g. if you have 1 x Galaxy Panel and 3 x Expanders with 28 zones, you will need 1 x Galaxy license.

Integration Difficulty Level

Easy	Some Complexity	Expert
		✓

Supported Versions

The Galaxy interface with Janus C4 supports the following intruder panels:

- Galaxy Dimension Panel versions 6.75 to 7.02 only
 - Galaxy Dimension 48 Panel
 - Galaxy Dimension 96 Panel
 - Galaxy Dimension 254 Panel
 - Galaxy Dimension 520 Panel
- Galaxy Flex Panel versions 3.14 to 3.34 only
 - Galaxy Flex 20 Panel
 - Galaxy Flex 50 Panel
 - Galaxy Flex 100 Panel

Prerequisites

- The Janus C4 Galaxy Integration is licensed
- You have an E080 Ethernet module installed on the Galaxy panel with:
 - A unique IP address in the same range as the Janus C4 server.
- You have a copy of the Galaxy RSS software with the latest patch installed.
- You have the 'engineers' passcode for the Galaxy panel.
- You have the 'managers' passcode for the Galaxy panel.

Additional Information
